A very select few People have a tendency to appreciate the craftsmanship of these British high-breeds. "Once driven, all is forgiven". You will never go back to the tried and true. Your "Drive life" takes on a whole new experience. The road ability of these automobiles is proven time and time again. Brave... to take one of these vehicles on, in the twisted Rocky Mountain roadways. Feel the stability of the pilot's seat. You best have a good set of driving gloves and a great detector with GPS capabilities.
